Augustinus Bader has attracted a cult celebrity following including the likes of Victoria Beckham – who went on to collaborate with Professor Bader to create a skincare line named Victoria Beckham by Augustinus Bader

Part of the Cypriot family-owned hotel group Thanos Hotels & Resorts, **Anassa resort** will be the first hotel in the world to welcome **Augustinus Bader** at its Thalassa Spa.

Augustinus Bader has worked closely with the Thalassa spa team to create a menu of exclusive treatments using the much-loved clean skincare collection.

Launching in Q3, the partnership will offer guests signature treatments using products and patented TFC8 technology from Professor Augustinus Bader; a globally recognised biomedical scientist, physician and leading expert in regenerative skincare.

Signature treatments will include:

The Introduction Facial - 60 minutes

The experience begins with a double cleansing experience, followed by a hybrid of skin preparation to achieve refined pores and radiant tint. A light massage supports the relaxing effect of this skincare experience followed by a cream mask to calm dry and stressed skin. The perfect finish is the application of the matching hero product according to the skin's need.

The Vip Facial - 90 minutes

A treatment starting with a double cleansing experience, followed by a hybrid of skin preparation to enhance the skin's innate ability to refine itself. The ritual then leads into a facial massage to promote the one of a kind TFC8 technology. A plumping vegan mask experience adds additional value, as well as a relaxing hand and arm massage, before heading into the perfect matching touch up with the hero products according to the skin's needs.

The Signature Body Wrap Experience - 45 minutes

A soft sea salt peel with the Augustinus Bader Body Oil followed by a wrap in the Augustinus Bader Body Cream to enhance the moisture of the skin and repair tissue damage, such as stretch marks and cellulite.

Augustinus Bader Full Or Part Body Treatment - 70 minutes

A signature fascia massage to support the properties of the TFC8 and mobilise the fascia as considered the tissue to stimulate the body's innate biological wisdom to repair. Boosted by a body wrap to support and reflect the action of the TFC8 of the Augustinus Bader Skin Care.

Natasha Michaelides, communications director of Anassa, says: "I'm thrilled Anassa will be home to the first Augustinus Bader spa treatment menu in the world – I'm also excited to introduce our guests to this exceptional brand, driven by science and results while guaranteeing ultimate relaxation through bespoke treatments".

The Thalassa Spa is also one of only a handful of places in Europe to offer a full menu of all-natural brand Tata Harper.

Company profile

Painting With Light

By combining lighting, video, scenic and architectural elements, sound and special effects we tell stories, create emotion and give your audience an experience that they will always remember.
