### Cypriot spa set to debut world-exclusive Augustinus Bader spa treatments

SHARE

By Megan Whitby 01 Jun 2021

Augustinus Bader has attracted a cult celebrity following including the likes of Victoria Beckham – who went on to collaborate with Professor Bader to create a skincare line named Victoria Beckham by Augustinus Bader

Part of the Cypriot family-owned hotel group Thanos Hotels & Resorts, Anassa resort will be the first hotel in the world to welcome Augustinus Bader at its Thalassa Spa.

Augustinus Bader has worked closely with the Thalassa spa team to create a menu of exclusive treatments using the much-loved clean skincare collection.

Launching in Q3, the partnership will offer guests signature treatments using products and patented TFC8 technology from Professor Augustinus Bader; a globally recognised biomedical scientist, physician and leading expert in regenerative skincare.

Signature treatments will include:

#### The Introduction Facial - 60 minutes

The experience begins with a double cleansing experience, followed by a hybrid of skin preparation to achieve refined pores and radiant tint. A light massage supports the relaxing effect of this skincare experience followed by a cream mask to calm dry and stressed skin. The perfect finish is the application of the matching hero product according to the skin's need.

#### The Vip Facial - 90 minutes

A treatment starting with a double cleansing experience, followed by a hybrid of skin preparation to enhance the skin's innate ability to refine itself. The ritual then leads into a facial massage to promote the one of a kind TFC8 technology. A plumping vegan mask experience adds additional value, as well as a relaxing hand and arm massage, before heading into the perfect matching touch up with the hero products according to the skin's needs.

#### The Signature Body Wrap Experience - 45 minutes

A soft sea salt peel with the Augustinus Bader Body Oil followed by a wrap in the Augustinus Bader Body Cream to enhance the moisture of the skin and repair tissue damage, such as stretch marks and cellulite.

#### Augustinus Bader Full Or Part Body Treatment - 70 minutes

A signature fascia massage to support the properties of the TFC8 and mobilise the fascia as considered the tissue to stimulate the body's innate biological wisdom to repair. Boosted by a body wrap to support and reflect the action of the TFC8 of the Augustinus Bader Skin Care.

Natasha Michaelides, communications director of Anassa, says: "I'm thrilled Anassa will be home to the first Augustinus Bader spa treatment menu in the world – I'm also excited to introduce our guests to this exceptional brand, driven by science and results while guaranteeing ultimate relaxation through bespoke treatments".

The Thalassa Spa is also one of only a handful of places in Europe to offer a full menu of all-natural brand Tata Harper.
